

Pioneer College Caterers and H1N1 Flu

Pioneer College Caterers believes that it has no higher obligation than the safety and welfare of our clients, customers and employees. Pioneer takes the risk of a pandemic outbreak of H1N1 flu very seriously.

We are monitoring the situation closely and are prepared to respond in the event the need arises on any of our client campuses. Our resident managers stand ready to work in complete support of the emergency response plans of our clients. In addition, we have heightened awareness training of our staff in proper cough etiquette and effective hand washing techniques.

Please keep in mind that the H1N1 is not a food borne illness and a person cannot contract it from eating pork products.
